Key words. gamma rays: general – ISM: supernova remnants – ISM: clouds – errata, addenda

Due to a technical problem that occurred during the production process of the article entitled: "H.E.S.S. detection of TeV emission from the interaction region between the supernova remnant G349.7+0.2 and a molecular cloud" by Abramowski et al. (2015), the reference to the second corresponding author (C. Trichard) in the published article was missing. Offprint requests can then be sent to D. Fernandez (`diane_0077@hotmail.com`) and C. Trichard (`cyril.trichard@lapp.in2p3.fr`).
